

Jake Krukowski

RevOps, SalesOps, & GTM Automation.

I build the systems that drive revenue. Combining technical precision with operational strategy, I help organizations cut the noise and scale efficiently.

TIMELINE

Manager of Revenue Operations

DEC 2024 - PRESENT

PREZI / INFOGRAM

Keeping sales ops and contract processes tight, while automating using low-code and AI where makes sense. Remote, efficient, and scalable.

SALESOPS # AI AUTOMATION # LOW-CODE

Owner & Principal Consultant

JUN 2021 - PRESENT

THE RUNDOWN

My own shop. I provide RevOps-as-a-Service to streamline GTM motions. I vibe code internal custom tools using Claude/Codex and build AI workflows with RAG to automate the boring stuff.

Account Executive

JAN 2024 - NOV 2024

CALLSTACK

Full-cycle consultative sales role closing \$100k+ avg. deal sizes. The role expanded into marketing and automations, where I built the lists, set cadences, and owned the outbound stack.

CONSULTATIVE SALES # MARKETING OPS # APOLLO # ZOPTO

Demand Generation Manager

MAR 2023 - JAN 2024

TEXT (FORMERLY LIVECHAT)

A 50/50 strategic split: I spent half my time managing a team of BDRs on discovery and processes, and the other half on lead gen strategy (PLG, ABM, ICP & Buyer Persona creation).

TEAM MANAGEMENT # PLG STRATEGY # ABM # SALESFORCE

Sales Operations Manager

OCT 2021 - MAR 2023

TEXT (FORMERLY LIVECHAT)

Partnered with leadership to drive performance through analytics. If it involved a funnel, a dashboard, or a cross-department project (Tableau, Salesforce), I was building it.

FUNNEL MONITORING # TABLEAU # SALESLOFT # LEAD GEN

Customer Success Specialist

2016 - 2019

TIDIO

Handled B2B onboarding, support, and legal case representation. Focused on retaining key accounts and streamlining the customer journey during a high-growth phase.

CUSTOMER SUCCESS # ONBOARDING # LEGAL SUPPORT # B2B SUPPORT

I connect disparate tools into a unified source of truth.

👤 BACKGROUND

My career didn't start in tech; it started in gastronomy and service. Managing high-pressure environments taught me early on that efficiency is everything.

Whether running a dinner service or a sales pipeline, friction is the enemy. I carried this mindset into my roles at **ComfortCar** and **Tidio**, focusing on smoothing out operations to drive real growth.

When I'm not building automations, I'm usually playing music (5 instruments and counting) or out with a camera. I sometimes take photos professionally, but given all of my things to do I am yet to complete my gallery website.

📖 EDUCATION

I never loved the traditional university lifestyle and chased real-life experience early on. Nevertheless, I find the skills I learned studying Law and Management useful daily.
